1. REINSURANCE SECURITY CONSIDERATIONS

1.1 Status Update

The purpose of this report is to provide the CLLAS Audit Committee with a status review of the current CLLAS reinsurance security consistent with CLLAS' Reinsurance Security Policy.

1.2 Reinsurance Security

One of the responsibilities of the Audit Committee is to monitor CLLAS' reinsurers and to recommend changes to the Board based on any number of factors including, but not limited to:

- Downgrading of the security rating;
- A rating agency placing a reinsurer on a "watch" list;
- Exposure to any one reinsurer exceeding an agreed percentage;
- Difficulties collecting reinsurance proceeds after a claim is settled;
- Use of unregistered (in Canada) security; and
- Any other matters that may threaten the security of a reinsurer.

The Committee acknowledges that reinsurance intermediaries cannot guarantee the solvency of any reinsurer and that they rely on the rating agencies to evaluate reinsurers' financial strength. The Audit Committee is not meant to substitute the expert advice provided by CLLAS' intermediaries. Its purpose is to use this advice to assist the Advisory Board in its due diligence process. Included in Appendices A and B are letters from Axxima (including Alternative Risk Services) and Miller Insurance Services LLP, respectively, which provide information on the reinsurance security practices of these firms.

1.3 Level I Monitoring

Level I monitoring of CLLAS reinsurance consists of the following:

- Current A.M. Best and S&P 5-year rating chart comparison – see Appendix C;
- Current claims liability exposure (i.e. case reserves and IBNR) to each reinsurer from all policy years combined – see Appendix D;
- Current claims liability exposure to each reinsurer for the prior policy year– see Appendix E; and
- Single claim limit exposure to each reinsurer for the current year – see Appendix F.

CLLAS reinsurers should be rated A- or better by A.M. Best and S&P, except for special circumstances agreed to by the Board.

For the committee's convenience we have also included the A.M. Best and S&P ratings for insurers participating on the commercial excess program placed by Pro-Form for CLLAS' subscribers, including the ratings for the "CLLAS International" program, as provided by Pro-Form, under Appendix C-PF. For completeness, the commercial excess and CLLAS International insurers have also been included in the analysis of claim limit exposure to each reinsurer for the current year, which is found under Appendix F-PF.

1.4 Level II Monitoring Triggers

Should any of the following events occur, a Level II monitoring would take place:

- Downgrading of the financial strength rating;
- A rating agency placing a reinsurer on a "watch" list;
- Difficulties collecting reinsurance proceeds after a claim is settled;
- Use of a reinsurer that is unregistered in Canada; and
- Any other events deemed material by the Audit Committee or its advisors.

Additionally, for a particular reinsurer, Level II monitoring will be triggered in the event the following takes place and the reinsurer's exposure to CLLAS is significant relative to the its total assets and/or capital and surplus:

- Current claims liability exposure (i.e. case reserves and IBNR) for all policy years combined exceeds 10% of the total;
- Current claims liability exposure for the prior policy year exceeds 10% of the total; and
- Claim limit exposure to each reinsurer for the current year exceeds 10% of the total limits provided by CLLAS.

CLLAS' exposure is considered significant to the reinsurer if its share of CLLAS' total current liabilities or claim limit exposure exceeds 0.1% of the reinsurer's assets or 0.5% of the reinsurer's capital and surplus.

1.5 Level II Monitoring

The following Level II monitoring should take place for any reinsurer that requires it due to events identified above:

- Additional information should be reviewed by the Audit Committee, including a review of:
 - Stock performance relative to the remainder of the market;
 - Early warning signals/ratios (as provided by A.M. Best or equivalent agency);

- Balance sheet and income statement highlights (as provided by A.M. Best or equivalent agency);
- Meetings or direct correspondence with such reinsurers as necessary to discuss the financial health of the reinsurer.

The Audit Committee should make recommendations to the Board based on such reviews.

2. LEVEL II MONITORING

2.1 Reinsurers Requiring Level II Monitoring

As the first step in our reinsurance security monitoring process, Level I tests were performed on all CLLAS reinsurers. The following identifies the reinsurers subject to Level II monitoring and which Level II monitoring criteria was triggered:

Level II Monitoring Triggers

	AWAC	Colchester	Lloyd's	AMA 1200 (Argo)	Allianz	Swiss Re	AML 2001 (MS Amlin)	Axis RE
Unregistered in Canada	✓	✓						
Difficulty collecting reinsurance proceeds after claim settlement								
Rating downgrade / "watch" list					✓	✓		✓
Current claims liability exposure (all years) exceeds 10%		✓	✓	✓			✓	
Current claims liability exposure (prior year) exceeds 10%		✓	✓	✓			✓	
Claim limit exposure (current year) exceeds 10%		✓	✓			✓		

Level II Monitoring Required?

	AWAC	Colchester	Lloyd's	AMA 1200 (Argo)	Allianz	Swiss Re	AML 2001 (MS Amlin)	Axis RE
CLLAS exposure exceeds 0.1% of total assets	n/a	n/a						
CLLAS exposure exceeds 0.5% of total capital & surplus	n/a	n/a						
Level II Monitoring Required	✓	✓						

Although exposure to Lloyd's does not exceed the Level II Monitoring requirement thresholds as a percent of assets and capital, we are including the AM Best Rating Report under Appendix I as an information item due to the size of the liabilities placed with Lloyd's.

2.2 Allied World Assurance Company Limited (“AWAC”)

General

Allied World Assurance Company Limited is a global specialty insurance and reinsurance company with offices in Bermuda, Europe and the United States. Launched in 2001, AWAC originally consisted of four employees located in a small office in Bermuda. Today, AWAC has offices in Atlanta, Bermuda, Boston, Chicago, Dublin, Farmington (CT), London, New York, San Francisco and Zug.

AWAC has been a participant in the CLLAS Program since 2002. Currently, AWAC participates in the highest levels of the CLLAS Program – the Optional Excess and Umbrella layers.

The CLLAS/AWAC reinsurance agreement includes a provision for outstanding claims advances by AWAC in favour of CLLAS.

On July 5, 2017 AWAC was acquired by Fairfax Financial Holdings. Stock information is no longer available for AWAC, so we have included the stock performance of their ultimate parent company, Fairfax Financial Holdings Ltd., which is outlined below.

Stock Performance

The following is the 5-year stock performance as of October 15, 2020 for Fairfax Financial Holdings (ticker: FFH, Toronto Stock Exchange) with the S&P 500 Index for comparison.

Financial Highlights

- Retained earnings increased from (\$693,900,000) in 2018 to (\$324,800,000) in 2019
- Income for the year, after taxation, increased from (\$90,300,000) in 2018 to \$363,500,000 in 2019
- The Company actively manages its reinsurance exposures by generally selecting reinsurers having a credit rating of “A-” or higher and monitoring the overall credit quality of its reinsurers to ensure that recoverables will be collected
- Approximately 94% and 96% of ceded reserves were recoverable from reinsurers who had an A.M. Best rating of “A” or higher as of December 31, 2019 and December 31, 2018, respectively

AM Best Report Highlights

The complete A.M. Best report is set forth in Appendix G.

- Current financial strength rating is A (Excellent) Stable from A.M. Best;

The balance sheet performance for AWAC is categorized as “strongest” which means that Allied World Assurance Company Holdings Limited (Allied World) has a strong balance sheet strength which is mainly due to a diversified investment portfolio, favorable reserve development and controlled growth

AWAC is backed by a Fairfax Financial Holdings (Fairfax) which has a financially stable balance sheet. AWAC can benefit from Fairfax's supportive financial leverage and favorable liquidity, with cash and short-term investments readily available to support its insurance operations.

Outlook

The stable rating outlooks reflect AM Best's expectation that the group's strongest level of balance sheet strength will continue to be supported by adequate operating performance; diverse business profile, both geographically and by line of business; and well defined enterprise risk management guidelines and controls.

- Combined ratios ranged from 85% to 126.4% in the past 5 years. With 2018 combined ratio at 98.2%
- A.M. Best report was updated on February 28, 2020.

2.3 Colchester Reinsurance Limited (“Colchester”)

General

Colchester is a captive reinsurer for CLLAS and is wholly owned by the current and past subscriber firms of CLLAS, or their affiliates. Colchester is domiciled in Barbados.

Stock Performance

Colchester is not publicly traded.

Highlights of A.M. Best Report

Colchester is not rated by any ratings agencies.

Financial Highlights

Please see Appendix H for a copy of the most recent financial draft statements (as of June 30, 2020). The following are some of the highlights from these financials:

- Total Equity decreased from \$25,768,960 in 2019 to \$25,597,365 in 2020
- Income for the year, after taxation, increased from (\$6,427,935) in 2019 to (\$1,287,566) in 2020
 - Reinsurance premiums written and earned increased from \$428,717 in 2019 to \$1,330,072 in 2020
 - Retrocession premiums increased modestly from \$1,068,610 in 2019 to \$1,261,726 in 2020
- Colchester has been deliberately distributing surplus via premium reductions (as seen above in the level of premiums written), and losses are expected to emerge over time as a result
- All the assets supporting the claims liabilities of Colchester are held in trust in a custodial account in favour of CLLAS, subject to a reinsurance security agreement as outlined by the Office of the Superintendent of Financial Institutions (Canadian federal regulator) and approved by the Alberta Superintendent of Insurance (the regulator in CLLAS’ home jurisdiction)
- On June 30, 2012 Colchester and CLLAS affected a Loss Portfolio Transfer, which transferred approximately \$33.1 million of CLLAS’ liabilities to Colchester for all prior years of account. Since that time, those liabilities have remained relatively stable, as can be seen in the chart below. Colchester also purchased 10% quota share adverse development retrocession protection on the Loss Portfolio, which attaches at \$41.7 million, also shown below as a dotted line for reference.

Actuaries and Insurance Management Advisors

September 23, 2014

Mr. Nick Leblovic
Chairman, CLLAS
c/o Davies Ward Phillips & Vineberg LLP
40th Floor, 155 Wellington Street West
Toronto, Ontario M5V 3J7

Dear Nick,

This is in response to a previous request to provide a letter regarding the reinsurance that is placed on behalf of CLLAS. We are reissuing this letter under Axxima cover to confirm that the previous letter, dated June 9, 2009 under Dion, Durrell + Associates Inc. cover, remains accurate under Axxima's management.

As you know, we work closely with Miller Insurance Services Ltd. (Miller) on all CLLAS reinsurance matters, with Miller being responsible for the London placement (including Lloyd's and certain European companies) and the Colchester retrocession placement. Axxima, via its subsidiary, Alternative Risk Services, a division of 3303128 Canada Inc. ("AR Services"), prepares the reinsurance submission that goes out to all markets and specifically places the domestic and Bermuda reinsurance as well as the aggregate stop-loss reinsurance placed through Colchester.

In the past, a minimum reinsurance security rating standard of no less than A-, as determined by A.M. Best and Standard & Poor's, had been established with CLLAS. Any deviation from such standard is to be referred to the CLLAS Advisory Board. Thoughtful and deliberate monitoring preserves the important relationships that CLLAS has developed over the years with its reinsurers.

Please be advised that neither Axxima, nor AR Services, carries out its own assessment of the solvency of any insurer or reinsurer and do not guarantee the solvency or continuing solvency of any insurer or reinsurer. You should note that the financial solvency of any insurer or reinsurer could change after the reinsurance protection has been placed. We are committed to providing CLLAS with up-to-date information on any material changes in the financial status or the security ratings of CLLAS reinsurers. To this end, we carry out CLLAS' adopted reinsurance security process.

In general, we are prepared to provide CLLAS with updates from A.M. Best and S&P based on our monitoring of the security ratings of each of the participating reinsurers. We will advise CLLAS on any adverse developments which may require CLLAS to replace a certain reinsurer mid-term or to decide to monitor and continue to use a certain reinsurer for a prescribed period of time.

We hope that the foregoing is satisfactory, however, should you have any questions, please do not hesitate to contact the undersigned.

Yours sincerely,

A handwritten signature in black ink, appearing to read "J. Tontini".

5th June 2009

Dear Nick

**CLLAS Reinsurance Programme
Renewal effective 1st July 2009**

In accordance with your request and in conjunction with Dion, Durrell + Associates, Inc., we have compiled various material relating to the reinsurers we use who participate on the CLLAS reinsurance programme. We have collated this information with the underwriters' responses given during our meetings to the set of questions posed during your recent visit to London. A copy of the matrix with reinsurers' feedback is enclosed.

You have asked us to comment on the appropriateness of the reinsurers who are involved as well as give our views on possible new markets. Miller does not assess or guarantee the solvency of any (re)insurer, however we check the financial strength ratings provided by specialist agencies (such as Standard & Poor's and A.M. Best) for each participating market and each must be authorised internally at Miller for us to use. Any markets which do not meet a minimum criteria may still be used but only with specific client approval. In practice the current specialist agency financial strength ratings of all the reinsurers used by us on your programme are in excess of our minimum criteria for authorisation.

On an ongoing basis we monitor these ratings as well as developments in the market and will advise you in the event there are circumstances which lead a market to fall out of our authorised classification. Taking into consideration reinsurers' feedback from our meetings, the Miller authorisations of each of the markets we use on the CLLAS programme are unaffected.

For 2009 we will be approaching the current participants for their support and many of these have had long term relationships with CLLAS. As outlined in London, we and Dion, Durrell work closely together to strategically manage the size and layering of participations offered by each reinsurer to ensure that the most optimal result is achieved for CLLAS, in line with its objectives for renewal. At present there are no new reinsurance companies which we wish to approach with your programme this year, but there are several new Lloyd's syndicates which may be interested in supporting your account and we will be approaching them for their views in due course. The current Lloyd's rating by Standard & Poor's is A+ (strong) with a stable outlook.

Please don't hesitate to let me know if you have any questions or comments.

Yours sincerely

A handwritten signature in black ink, appearing to read "Mark Popple".
